CITOSOL ACTIVE

CITOSOL ACTIVE

Nonfood Compounds Program Listed K1,K3 175147

A modern, high-performance cleaner for cutting plates and industrial and technical applications

CITOSOL ACTIVE is a powerful, label-free cleaner for daily cleaning in corrugated board and folding carton production. The product has been specially developed to combine high cleaning performance, optimum process reliability and ease of use.

The cleaner removes adhesives, oils, greases, resins, waxes and other stubborn contaminants reliably, quickly and residue-free. It ensures clean surfaces and reliable adhesive bonds. Its quick evaporation enables brisk further processing and leaves ready to use surfaces without annoying residues.

The cleaning effect of CITOSOL ACTIVE activates the surface. This increases the adhesion of adhesive tapes, coatings and print.

Your advantages at a glance:

- High-performance cleaner for daily use in production
- A cleaner that is not subject to labelling requirements, is not classified as a hazardous substance under the CLP Regulation and therefore bears no hazard symbols or signal words
- High flash point for greater safety during storage and use
- Not classified as dangerous goods and reduced HSE requirements
- Storage class 12 (non-flammable liquids)
- ISEGA-certified for food-related production areas
- NSF K1/K3 registered
- Does not contain any ingredients of animal origin
- An alternative to traditional, mostly more hazardous solvents such as acetone, IPA, ethyl acetate, brake cleaner, thinner or cleaning solvent
- A pleasant, subtle odour compared to traditional solvent-based cleaning agents
- Rapid evaporation for prompt further processing

	Description	Unit	Order no.
	CITOSOL ACTIVE 1 litre	1 pc.	BMA00020
	CITOSOL ACTIVE 5 litre	1 pc.	BMA00021
	CITOSOL ACTIVE 60 litre	1 pc.	BMA00023
