

CITOject F

High Quality Ejection Material

CITOject F is a tried and tested, high-quality ejection material that has been specially developed for use on cutting dies and meets the requirements of both die manufacturers as well as those of companies converting solid and corrugated board.

Due to its material quality and reliability, CITOject F sets benchmarks for all standard applications.

OUR RECOMMENDATION FOR THE

- High standards
- Constant machine performance
- Long service lives
- Outstanding results

Area of application:

- Flatbed / folding carton
- Flatbed / corrugated board

The colour-coding enables clear identification of the respective function. The ejection material has been certified as safe for the production of folding boxes for food packaging and is available with the self-adhesive CITO EasyFix technology.

CITOject F has the following convincing product properties:

- For **long runs** and **constant machine performance**
- Simple optical quality control through **colour-coding**
- **Reduction of cutting pressure** in the machine
- **Fewer nicks** and **faster sheet transfer**
- **UV and ageing-resistant** material
- **EasyFix technology** for exact positioning and residue-free removal of the ejection material
 - ✓ Time-saving due to fast and simple attachment of profile
 - ✓ No damage to the cutting die
 - ✓ 100 % efficiency of the rubber lining
 - ✓ Increased work safety
- Certified as **safe for the production of folding boxes for food packaging**
 - ✓ Conform with sections 3 and 17 of EC No. 1935/2004 for food contact materials
 - ✓ Production reliability combined with product safety

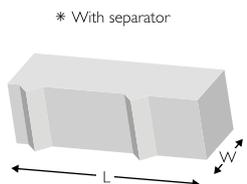

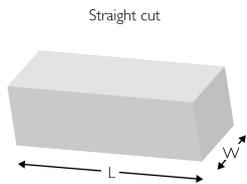

CITO Quality Label:

This quality label on the cutting die means that high-quality elastomers such as CITOject F have been used.

CITOject F 45 ORANGE *	700 × 11 × 11 mm		BPD01683
CITOject F 55 BLUE			
Plate format (unit = 1 plate)			
CITOject F 55 BLUE	900 × 700 × 7 mm	BPC00650	BPC01650
CITOject F 55 BLUE	900 × 700 × 10 mm	BPC00652	BPC01652

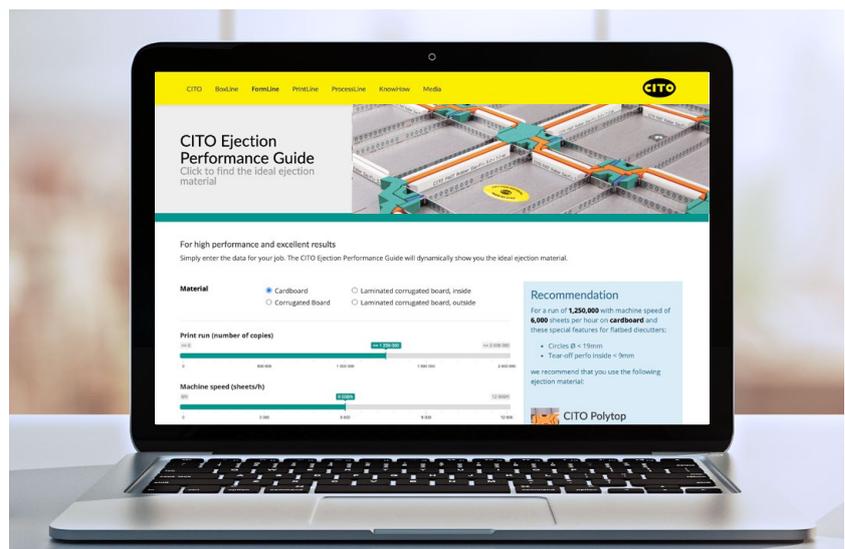

CITO Ejection Performance Guide

The digital online tool dynamically shows you the ideal ejection material for all your jobs.

How it works:

- Enter your order data such as material, run length, machine speed and special applications in the CITO Ejection Performance Guide.
- Receive your individual recommendation for your application with one click.
- For an even more detailed recommendation, request your personal PDF guide by email. You will receive it immediately. You will get the precise material height for each of your specific requirements.

If you have any further questions or would like more information please contact our experts to find the perfect solution for your application.

Try it out now! It's free!
