

## CITO TAPE

Self-adhesive, special patching tape of calibrated laminated paper. Easy use thanks to protective lead-on with tab and color code for different thicknesses.

- **Higher production reliability** through optimum adhesive strength, even for tape-to-tape applications
- **Uniform and easy unwinding:** no bulging, no blocking and no soiling thanks to winding up on a separate core that is free from burrs
- **Ideal for long runs and repeat orders** due to its extreme hardness
- **Smooth running of the machine** through constant pressure distribution

Perfect in combination with  
all CITO makeready sheets

Largest choice of widths and thicknesses, even for special applications
