

## Ink-repellent RSP Protective Impression Cylinder Jackets

Ink-repellent RSP Protective impression cylinder jackets for perfecting presses from HEIDELBERG and Koenig & Bauer (KBA)

- Enormous cost savings through reduced downtimes
- Significant improvement in your product quality while perforating in fresh colour
- Great time savings, no cleaning required
- Extremely ink-repellent surface
- Perfect for editions with millions of copies

When combined with Mark 3 jackets from Heidelberger Druckmaschinen AG or silicone jackets from Koenig & Bauer AG, this ink-repellent RSP protective impression cylinder jacket with Topcoat coating (easy clean effect) is the ideal solution to give you even more options for print finishing on your perfecting press.
