

CITO BALANCE PROFILE

The new product development especially for balancing the cutting die!

- Shorter set-up time by faster makeready
- Reduced cutting pressure
- Improved sheet run and greater machine performance
- Longer life of the cutting tool
- Available in self-adhesive CITO EasyFix technology

Area of application:

flatbed diecutting / corrugated board, flatbed diecutting / solid board

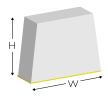

CITO BALANCE PROFILE was designed in close cooperation between experts in practice and the CITO specialists in applications engineering and R&D. The material properties correspond exactly to the requirements in the diecutting process.

The new type of profile prevents the cutting die from tilting over and ensures a uniform cutting result across the entire sheet. By using the CITO BALANCE PROFILE the makeready time is reduced substantially and the machine performance is increased significantly.

Another advantage: The cutting rules are handled carefully, which has a positive effect on the life of the cutting die. The product innovation is available with self-adhesive CITO EasyFix technology.

Technical Data

Description	Dimensions (L × W × H)	Colour	Order no.
BALANCE PROFILE 8 mm	658 × 20 × 8 mm	GREY / RED	BPB02608
BALANCE PROFILE 11 mm	658 × 20 × 11 mm	GREY / BLACK	BPB02611

Unit: 38 strips / 25 m
