

RSP Flexible Die Strips

Creasing, diecutting and perforating

- Long life for large runs due to excellent material hardness
- Easy and precise gluing thanks to mitre cut on both sides
- Exact attachment due to minimum centricity tolerances
- Optimum adhesion thanks to special residue-free removable adhesive tape

RSP Flexible Die Strips for creasing, diecutting and perforating; height-adjusted and especially developed for use with RSP. Flexible Die Strips are made of a very hard material and are therefore also optimally suitable for larger runs.

Technical data

RSP Flexible Die Perforating Strips

Description	Cut : pitch	Length	Unit	Order no.
RSP Flexible Die Perforating Strips 8 tpi	2,4 : 0,8 mm	700 mm	5 pc.	BRK01001
RSP Flexible Die Perforating Strips 12 tpi	1,4 : 0,8 mm	700 mm	5 pc.	BRK01002
RSP Flexible Die Perforating Strips 16 tpi	0,8 : 0,8 mm	700 mm	5 pc.	BRK01003

tpi = teeth per inch

RSP Flexible Die Creasing Strips

Description	Application	Length	Unit	Order no.
RSP Flexible Die Creasing Strips R1	only creasing	700 mm	5 pc.	BRK01006

RSP Flexible Die Cutting Strips

Description	Length	Unit	Order no.
RSP Flexible Die Cutting Strips	700 mm	5 pc.	BRK01008
