

Technical data sheet

23.07.2024

Article – no.: BJA00020 – BJA00032

Designation: CITO Makeready Sheet - calibrated, 3-ply

Product structure:

	Description
Layer 1	Paper
Layer 2	Foil layer
Layer 3	Paper

Main application:

- material for professional and efficient patching of the cutting die

Product advantage:

- **paper surface** is ideally suited for plotting with inkjet and pen with good contrast between the paper and applied layout results
- **middle foil layer** ensures dimensional stability
- makeready sheet stays tearproof due to the laminated material

Specific technical data and form of delivery:

Parameter	Unit	Value
Length	[m]	50
Thickness	[mm]	0.10
Width	[cm]	70 to 140
Core diameter	[mm]	76
Protrusion of the core	[mm]	< 2 mm
Packaging	-	role

Storing conditions: 18 – 25°C; 30 – 70 % r.H.

Storing duration: 12 months

HS Code: 48070080

Country of origin: European Union

Waste disposal: Residual waste; observe local disposal regulations.
