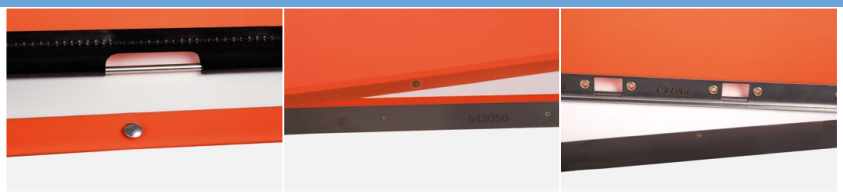
Anti-marking Solutions

The alternatives for your transfer and delivery cylinders.

- PrintGuardPlus®
- Sheets
- OrangeNets



PrintGuardPlus®

PrintGuardPlus® is an anti-marking jacket with a special, ink-repellent coating and elastic, compressible reverse side. Available for all common Heidelberger printing presses. These anti-marking jackets have been made to a very high level of manufacturing standards, thus greatly prolonging their lifespan.

Your advantages:

- ✓ **Constantly high printing quality:** the special ink-repellent silicon coating offers optimum anti-marking properties.
- ✓ **Longer lifespan:** the unique elastic and compressible reverse side avoids dents in the PrintGuardPlus® anti-marking jacket from harmful materials.
- ✓ **Increased productivity:** the quick, safe and easy self-installation noticeably reduces the machine downtime.

Price-performance winner

The aforementioned qualitative advantages paired with a much better price than OEM jackets, for example, make PrintGuardPlus® your perfect anti-marking solution.

Potential savings on the purchase price of up to 50 % compared to OEM jackets are possible depending on the machine type.

Savings of more than 10,000 euros as possible taking a current eight-colour printing press with perfector in the format 3B as an example.

Use on …	Cylinder	Unit	Order no.
HEIDELBERG SM 52	transfer cylinder	1 pc.	BVA00009
HEIDELBERG SM 52	delivery cylinder*	1 pc.	BVA00008

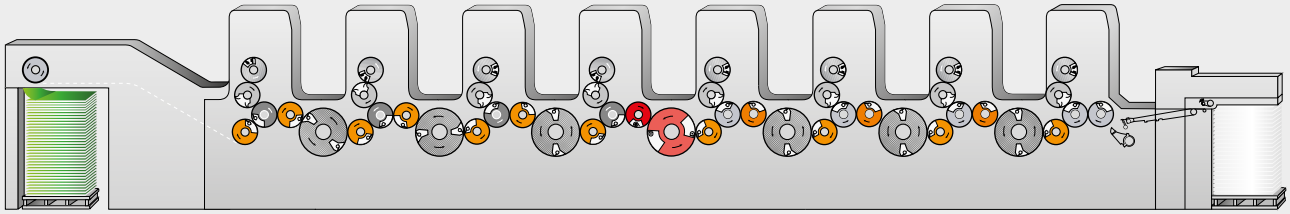
HEIDELBERG SM 74 / SX 74	transfer cylinder	1 pc.	BVA00012
HEIDELBERG SM 74 / SX 74	delivery cylinder*	1 pc.	BVA00011
HEIDELBERG SX 74	transfer cylinder**	1 pc.	BVA00022
HEIDELBERG SM 102 (> 1995)	transfer cylinder	1 pc.	BVA00006
HEIDELBERG SM 102 (705 mm)	delivery cylinder	1 pc.	BVB00005
HEIDELBERG SX 102	transfer cylinder	1 pc.	BVA00035

* with deep-pile delivery section
** with printing substrate extension / adjustable T1 cylinder

Further machine types available on demand.



Sheet products from PrintGuardPlus®

Sheet products from PrintGuardPlus® are self-adhesive or non self-adhesive and also available for printing presses from other manufacturers.

Your advantages:

- ✓ **Consistently high print quality** – the special ink-repellent silicone layer has excellent anti-marking properties.
- ✓ **Increased production** – it is simple and quick for the customer to install, significantly reducing machine downtime.
- ✓ Available in **self-adhesive and non-adhesive** anti-marking film form, cut to size by the customer; without compressible base layer.
